If your child is diagnosed with autism spectrum disorder, chances are you've heard the term "Applied Behavior Analysis," or ABA. But what is it, and why is it recommended? Tune into our upcoming webinar to understand why ABA is the gold standard in treatment for children with a diagnosis of autism spectrum disorder and related disorders. We'll explore the science, discuss what to look for when choosing an ABA provider, and clear up the misconceptions that are often connected to ABA treatment.

Did You Know?

Applied Behavior Analysis is a scientifically proven treatment that has been around for over 50 years. ABA is all about fostering your child's independence while supporting their individual development—helping them become their best selves!

About The Infinity Center

At the Infinity Center, our ABA therapists offer a structured environment that focuses on building communication and social skills. We work together with parents and caregivers to develop a treatment plan to meet your child's and your family's specific needs. The Infinity Center is a subsidiary of Humanim, a Baltimore based human services nonprofit organization with more than 50 years experience serving individuals with intellectual and developmental disabilities throughout Maryland.
